Activity Created/Presented by. Ange Marie Dwyer

Activity Name Make Your Very Own Hollywood Movie Clapboard

Age Group 5-12

Description

Let's add some Hollywood fun and make our own movie clapboard. Using a few basic supplies we will create a cute prop to use in our photos, videos and play. With room to write on we can add names, dates and intentions to our everyday memories. While this activity is suitable for every age the video will be geared towards a younger child who is working in a safe creative space with an older sibling, family member or adult.
