

TRAGEDY ASSISTANCE PROGRAM FOR SURVIVORS

Memorial Day and Every Day: Love Lives On

Memorial Day is the time our nation pauses to honor those who have given their lives in service. This day, more than any other on the calendar, is a testament to our nation's long history to meet any challenge and protect our freedom. This day, and its importance, is etched in the faces of those who represent the living legacy of that service – the families and loved ones left behind. This is the TAPS family.

We want to share a very special recording project of ten original songs that honor the lives and dedication of our servicemen and women written by TAPS Families alongside some of the best songwriters in Nashville. The songs have been compiled into our Album: Love Lives On featuring top recording artists that include Billy Ray Cyrus, Vince Gill, Lonestar, Pam Tillis, The Gatlin Brothers, All-4-One, John Rich and more.

From the ashes of grief comes the most powerful and real songs of hope, perseverance and determination that they did not die without a reason. These are not just songs of longing and loss. These songs prove what our hearts know best -- that love truly does live on.

Please take a moment to watch a recap of the project. We would like to ask you to share this with your employees, partners, colleagues and friends. [Pre-Download/Order the Album on Spotify, iTunes, Amazon Music or Google Play.](#)

We cannot think of a better “gift” for our TAPS Families this Memorial Day. Help us to honor all those grieving the loss of their precious military loved ones. Share this information with anyone looking for a way to honor these heroes on Memorial Day.
