

The **Tragedy Assistance Program for Survivors** is the national non-profit organization caring for the families left behind following a military death.

In 2021, TAPS will host programs around the country for our youngest survivors. These include Regional and National Good Grief Camps, Family Campouts, Retreats and Children's Care Groups. Our children and their Military Mentors are given a backpack to carry their supplies.

To keep our children safe in this pandemic, each child will need their own set of supplies at TAPS Good Grief Camps. We are asking for your help to Fill the Backpack so everyone can fully participate.
